

# BRAND CONSISTENCY

Brand consistency is the practice of always delivering messages aligned with the core brand values in the same tone, presenting the brand logo in a similar way, and repeating the same colors throughout your visual brand elements. Over time, these elements become ingrained in the minds of consumers, and they're more likely to remember your brand.

Brand consistency also ensures that your brand is easily recognizable across marketing channels and touch points.

**Brand Consistency also includes:**

- Customer Experience – Providing a consistent Member experience fosters trust and confidence in your brand.
- Brand Values – Associate your words with actions this builds trust in your brand, service, and offerings.
- Brand Identity Elements – These are the visual design elements that make your brand recognizable and help distinguish yourself from the competition.

# BENEFITS OF BRAND CONSISTENCY

## **Maintaining customer expectations**

When creating marketing content, your team can share collateral that delivers the same visual cues from logo, color, and tone that won't negatively impact customer perception. This standardization of branding let's them know exactly what to expect every time they come across your business.

## **Evoking positive emotions**

When you tie brand consistency to positive emotions (through the use of intentional copy and imagery), your audience will begin to associate those positive emotions with your brand. When done right, those emotions are eventually recalled by simply seeing your logo or brand name. The goal is to make people happy by pure exposure to your brand. With this in mind, happy people are more likely to buy, and more so from a company they trust.

## **Aligning separate offerings**

In creating a uniform brand identity, business teams can create varying forms of content across departments (ie Member Experience, Private Events, and Membership) that still clearly meet the brand guidelines. While each team won't be working on the same projects directly — the brand's story will still remain.

# IF IT'S BORING YOU'RE DOING IT RIGHT

If you get bored looking at the same visual elements, the same layouts, and the same color schemes for your marketing materials, you're on the right track. Unfortunately, it can get a bit boring, but that means it's all the more likely that you're establishing brand recognition in the minds of consumers.

# ESTABLISHING YOUR BRAND FONTS

## **Consider Readability:**

Ensure that your chosen fonts are easily readable across different platforms and devices.

Test how they look in various sizes and formats.

## **Limit the Number of Fonts:**

Stick to a limited number of fonts to maintain consistency and avoid visual clutter.

Typically, 2-3 fonts is sufficient. One font for headings, one font for paragraphs and an accent font are sufficient for most brands.

## **Create Hierarchy:**

Establish a clear hierarchy by assigning different fonts to different levels of information.

Use variations in size, weight, and style to create visual contrast.

## **Testing Phase:**

Test your chosen fonts in different contexts, such as print materials, digital platforms, and marketing collateral.

Iterate and make adjustments based on feedback and visual appeal.

# ESTABLISHING YOUR BRAND FONTS

## **Create Brand Guidelines:**

Document your chosen fonts, styles, and guidelines in a brand style guide.  
Include information on font usage, colors, and any other design elements.

## **Ensure Licensing:**

Make sure you have the appropriate licensing for the fonts you choose, especially if they are not free.

## **Implementation:**

Apply your chosen fonts consistently across all brand touchpoints, including websites, social media, print materials, and packaging.

*Remember that your brand fonts play a crucial role in creating a cohesive and memorable brand identity, so invest time and effort into selecting and implementing them effectively.*

# KEEPING IT INTERESTING

## Type Variations

One way to keep things interesting, but remain on brand is utilizing type variations. This can be lowercase, sentence case, uppercase, as well as adjusting the kerning, tracking, and leading of your brand fonts depending on the “look and feel”

# ESTABLISHING YOUR COLOR PALETTE

Choosing brand colors is a critical aspect of establishing a distinctive and memorable brand identity. Here's a guide to help you pick the right colors for your brand:

## **Understand Your Brand Personality:**

Consider the personality and values of your brand.

Think about the emotions and feelings you want to evoke in your audience.

## **Define Target Audience:**

Understand your target audience and their preferences.

Consider cultural and psychological factors that may influence color perception.

## **Research Your Industry:**

Look at the color palettes used by competitors and other successful brands in your industry.

Identify trends and decide whether to follow or differentiate from them.

## **Color Psychology:**

Understand the psychological impact of colors.

Different colors evoke different emotions (e.g., blue for trust, red for energy).

Choose colors that align with your brand message and resonate with your audience.

# ESTABLISHING YOUR COLOR PALETTE

## **Consider Brand Values:**

Align your color choices with your brand values and message.

For example, environmentally friendly brands may choose green to convey sustainability.

## **Choose a Primary Color:**

Select a 3-4 primary colors that will be the dominant color in your brand palette. Then, select 1-2 secondary colors that compliment your brand in your color palette.

Your primary color will often be used for your logo and key brand elements.

## **Create a Color Palette:**

Build a color palette around your primary color.

Choose complementary or analogous colors that work well together.

Include variations in shades and tones for flexibility.

## **Limit the Number of Colors:**

Keep your color palette simple. Too many colors can be overwhelming.

A common practice is to have a primary color, secondary color, and accent color.

## **Test Accessibility:**

Ensure that your chosen colors are accessible to all users, including those with visual impairments.

Test color combinations for readability and contrast.

# ESTABLISHING YOUR COLOR PALETTE

## **Consider Mediums:**

Think about where and how your brand colors will be used (e.g., digital, print, merchandise).  
Some colors may look different in various mediums, so test them in different contexts.

## **Create Brand Guidelines:**

Document your chosen colors and guidelines in a brand style guide.  
Include information on color codes (RGB, CMYK, HEX), usage, and any specific rules.

## **Test and Iterate:**

Test your color palette in various applications and gather feedback.  
Be open to making adjustments based on how the colors resonate with your audience.

## **Ensure Consistency:**

Apply your brand colors consistently across all touchpoints, including websites, marketing materials, and packaging.

*Remember that your brand colors contribute significantly to brand recognition and perception, so choose them thoughtfully and strategically.*

# WHY CANVA & SEMI CUSTOM LOGO TEMPLATES WON'T BRING VALUE

While platforms like Canva and semi-customizable logo templates on Etsy offer cost-effective solutions, they inherently fall short of delivering a luxury brand experience. Opting for these generic templates may save money, but they compromise the exclusivity and uniqueness that luxury clients seek. A luxury brand is not just about a visually appealing logo; it's about crafting a distinct identity that resonates with a specific audience. Canva and similar platforms lack the personal touch required to cater to the discerning tastes of luxury clients. These templates, by their nature, are interchangeable, diluting the essence of individuality that luxury brands embody.

Luxury clients crave an unparalleled experience that extends from the first interaction, and a bespoke brand, unlike templated solutions, provides that sense of tailor-made sophistication. Your brand serves as the initial gateway into the client's experience, and investing in a custom, unique identity is the key to capturing the attention and loyalty of luxury clientele.

# WORKING WITH KAYLA

Photographers seeking to elevate their brand presence and create a lasting impact should consider partnering with Kayla Victor of K Creative Co. With a decade of graphic design expertise, Kayla seamlessly blends creativity with strategic insights, sparing photographers from the intricacies of brand development.

At K Creative Co., the journey begins with a meticulous understanding of each photographer's unique vision and extends to comprehensive research on target audiences. Kayla goes the extra mile, delving into market insights that inform a tailored brand strategy. By entrusting the dirty work to K Creative Co., photographers can focus on their craft while witnessing the transformation of their brand into a compelling and resonant visual narrative, capturing the essence of their work for a wider audience.

Our work can be seen in nationally recognized brands like Marriott, ClubCorp, and other luxury brands just like you.
